Empathize & Discover

Date	29 June 2026
Project Name	Visitor Management System
Maximum Marks	4 Marks
Roll No	23A51A4271

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Uses of an Empathy Map :

- Understands the user's needs and problems.
- Helps view the situation from the user's perspective.
- Identifies user pain points and expectations.
- Improves communication within the project.
- Supports designing better, user-centered solutions.
- Helps create products or services that satisfy customer needs.

EMPATHY MAP

SAYS

1. Long queues at reception.
2. Manual visitor registers.
3. Delayed approvals.
4. Difficulty tracking visitor records.

FEELS

1. Frustrated by long waiting times.
2. Concerned about security.
3. Happy when the process is quick.
4. Confident using a digital system.

THINKS

1. Registration should be simple and fast.
2. My information should be secure.
3. I should receive instant approval.
4. Visitor records should be easy to access.

DOES

1. Registers visitor details.
2. Requests host approval.
3. Checks visitors in and out.
4. Views visitor reports.
5. Maintains visitor history.

PAIN

- Paper-based records.
- Long waiting time.
- Human errors.
- Lost visitor records.
- Lack of real-time tracking.

GAINS

- Digital registration.
- Faster approvals.
- Better security.
- QR code check-in/check-out.
- Real-time reports and analytics.
- Improved visitor experience.
